

## **Our Equality, Diversity & Inclusion Vision**

The purpose of the Planning Inspectorate is to maintain a fair planning system, support significant infrastructure development and help communities shape where they live. Our EDI vision will help us accomplish this. We're at our best when we feel we belong, and we treat each other with kindness and respect. Our people, in all their vibrant differences, are our strength.

Bringing together colleagues from different backgrounds and with varied life experiences, in a workforce more representative of the communities we serve, will make us better at what we do. It'll also help us improve outcomes for our customers and our colleagues.

We have taken steps forward in our approach to equality, diversity and inclusion over the last four years, yet there's more we want to do.
